GitHub: <https://github.com/mohammedsarfaraz2002-cmd>

Work Authorization: UAE Golden Visa Holder

PROFESSIONAL SUMMARY

Highly motivated MSc Cloud and Network Security student with a First-Class BSc (Hons) in Computing and practical experience in software development, web development, databases, and academic full-stack projects. Skilled in C++, Java, C#, PHP, JavaScript, MySQL, HTML, and CSS, with hands-on experience building web applications using XAMPP and GitHub. Currently preparing for the AWS Certified Cloud Practitioner certification and seeking graduate opportunities in software engineering, cloud computing, IT, or technical support.

TECHNICAL & ANALYTICAL SKILLS

Programming Languages: C++, Java, C#, PHP, JavaScript

Web Development: HTML, CSS, JavaScript, PHP

Databases: MySQL, database design, data validation

Cloud: AWS Certified Cloud Practitioner - In Progress

Tools & Environments: GitHub, VS Code, XAMPP, Localhost Server Setup, Microsoft Office

Core Concepts: Object-Oriented Programming, full-stack development, CRUD operations, testing, debugging, data preprocessing

Languages: English, Urdu | **Additional:** Valid UAE Driving License

PROFESSIONAL EXPERIENCE

Web Developer - Co-Ventech

Approximately 1.5 Years

- Maintained and updated the company website to improve functionality, content accuracy, and user experience.
- Supported the development and maintenance of client websites using HTML, CSS, JavaScript, PHP, and MySQL.
- Assisted with website troubleshooting, bug fixing, content updates, and technical improvements based on business and client requirements.

ACADEMIC PROJECTS

Library Management System - HTML, CSS, JavaScript, PHP, MySQL, SOAP

- Developed a full-stack e-commerce bookstore platform integrating multiple supplier systems using SOAP web services.
- Built product browsing, shopping cart, order handling, admin dashboard, and supplier communication features.
- Applied multi-database architecture to simulate real-world distributed system integration.

Telecom Churn Analysis and Prediction - Python, Pandas, Scikit-learn, Machine Learning

- Developed a machine learning project to analyze telecom customer data and predict customer churn.
- Performed data cleaning, preprocessing, feature encoding, train-test splitting, and model evaluation.
- Compared Logistic Regression and Decision Tree models using accuracy, confusion matrix, and ROC/AUC evaluation metrics.

EDUCATION

Bachelor of Science (Honours) in Computing — University of Greater Manchester

First-Class Honours | Completed

Master of Science (MSc) in Cloud and Network Security — University of Greater Manchester

October 2026 – Present
